

RED TASK - Student Instructions: Incident Case Study.

Watch the video presentation or select an incident case study from the nominated documents provided <https://www.ammonia.co.nz/page/case-studies/> – take 10 -15 minutes to scan through the document and answer the questions below.

1	What was the name of the incident you reviewed?	
2	Briefly Summarize in your own words what occurred?	
3	What was the consequence of the incident?	
4	How much Ammonia was lost?	
5	What was done well to control the incident?	
6	What action was taken but could have been done better?	
7	What was the biggest mistake made during the incident?	
8	What controls would you have put in place to prevent the incident from happening?
